We are here at HINENI SEVEN RESOURCES DMCC, we are committed to operate responsible, hence our product-coal, can pave the way for renewable energy to flourish and society to sustain their way of life. We believe when coal mining is conducted responsibly, it can provide positive benefits to all stakeholders, more over the electricity it generates for us to live life and do our daily activities.

Vision

Becoming leading coal trader for local needs, delivering optimum values to all stakeholders with quality Management The team work strategy. And To become an environmentally friendly mining company with international standards.

Mission

- Maintaining good corporate governance and promoting good corporate citizenship
- To become a company with good corporate governance while helping to build, promote and enhance the welfare of the community surrounding the sites.
- Develop excellence in all operations to serve our customers with consistent quality of products and services.

Opportunity and Business Strategy

In 2024, the Company has developed and implemented several strategic initiatives, including:

1. Focusing on the provision of high-quality coal which is thermal coal with low ash and sulfur content with an average calorific value of 3,400-6,500 kcal/kg (ARB).
 2. Increasing operational efficiency through various proactive measures to control operating costs and increase profit margins by maximizing synergy between lines, thereby minimizing operational time and costs.
 3. Maintaining and enhancing aspects such as quality, corporate governance, health and safety, environment, and social responsibility in order to maintain a good reputation and make it a competitive advantage of the Company.
 4. Developing a sustainable long-term production profile of the Company by continuously evaluating potential investment opportunities in coal mining trading.
